

## ★ Boat Origami Tutorial – Easy Paper Boat for Kids ★

Paper boat origami is one of the most fun and beginner-friendly origami crafts. This classic boat design is perfect for kids, parents, and beginners who want to learn origami in a simple and enjoyable way. With just one sheet of paper, you can create a cute floating paper boat in a few minutes.

### MATERIAL NEEDED

- 1 square or rectangular sheet of paper
  - Flat surface (table or desk)
  - Clean, dry hands
- (No glue or scissors required)

### PAPER SIZE

- Recommended size: A4 (21 × 29.7 cm)
- A5 paper
- Origami paper
- Any rectangular paper (notebook or craft paper)

### TIME REQUIRED

- 5–7 minutes

### DIFFICULTY

- Easy (Beginner Friendly)
- Perfect for kids aged 5+ with adult supervision.

# TULSI ORIGAMI

## Step 1: Start with a Rectangular Paper

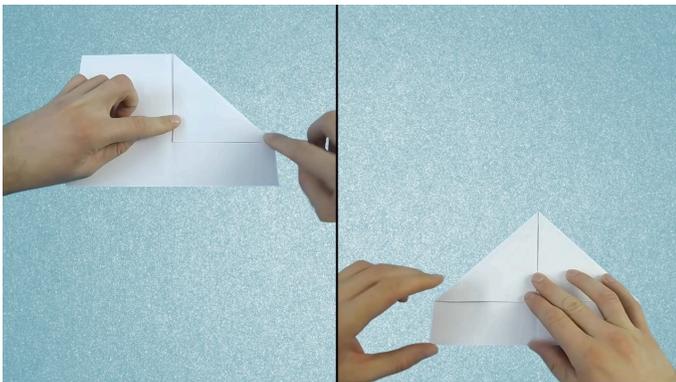

Place the paper flat on the table in a vertical position. Make sure the paper is neat and uncreased.

## Step 2: Fold the Paper in Half

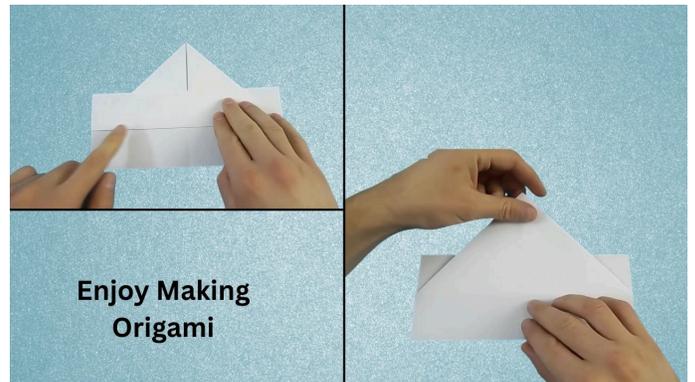

Fold the paper from top to bottom to form a rectangle. Press the fold firmly and then unfold slightly to see the center line.

## Step 3: Fold the Top Corners

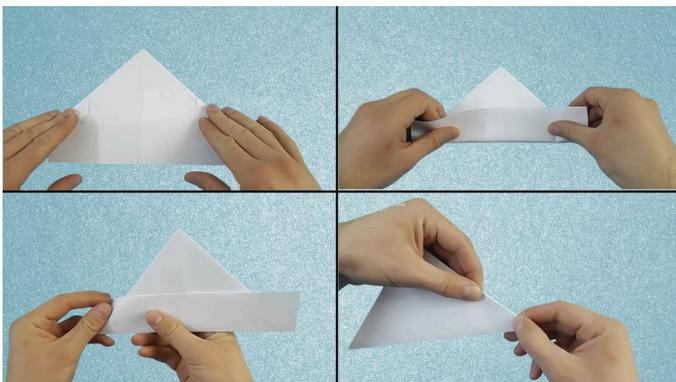

Bring both top corners down toward the center line, forming a triangle shape at the top.

## Step 4: Fold the Bottom Flap Up

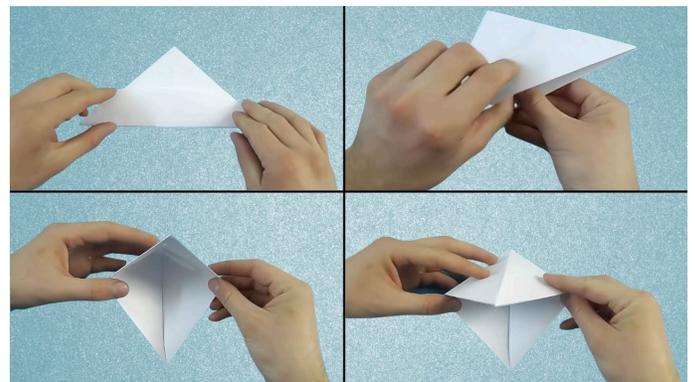

Fold the bottom edge of the paper upward on both sides, covering the lower part of the triangle.

## Step 5: Tuck in the Side Corners

Fold the small side corners inward neatly to secure the flaps and make the shape clean.

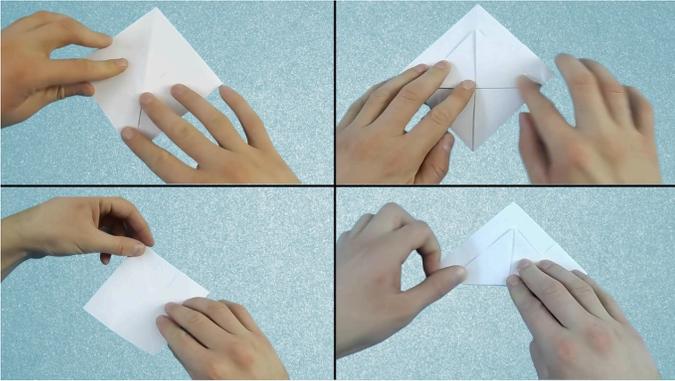

## Step 6: Open the Bottom

Carefully open the bottom part of the model to form a square shape. Flatten it gently.

# TULSI ORIGAMI

## Step 7: Pull the Top Corners Apart

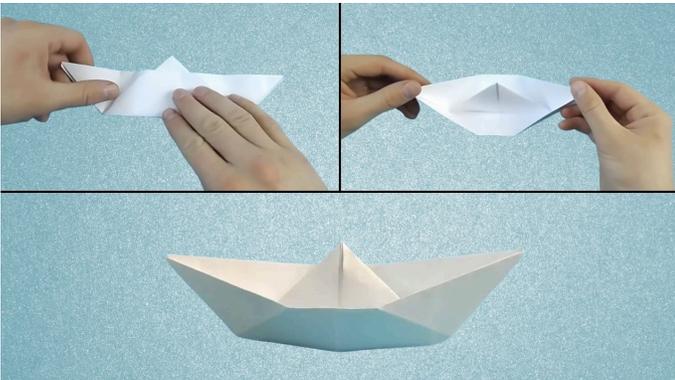

Hold the top corners and slowly pull them outward to begin forming the boat shape.

## Step 8: Shape the Boat

Adjust the folds and flatten the bottom so the boat can stand properly.

## Step 9: Your Paper Boat Is Ready

Your origami boat is now complete and ready to float or display.
